

TECHTAN Course Brochure

2024

MISSION AND VISION

Mission

Empowering individuals with tailored tech education in a sophisticated environment. We foster excellence, integrity, and empowerment, guiding learners to thrive in the digital era with personalized attention and industry expertise.

Vision

To be the premier destination for classy tech education, inspiring lifelong learners to unlock their full potential and lead with confidence in the ever-evolving world of technology.

CORE VALUES

We uphold the highest standards of integrity, transparency, and ethical conduct in all our interactions, building trust with our clients, partners, and community through honesty, accountability, and respect.

We foster a culture of collaboration, teamwork, and inclusivity, valuing diverse perspectives and leveraging collective strengths to drive innovation, foster creativity, and achieve shared goals in the tech community.

We strive for excellence in tech education, delivering high-quality programs and services that exceed expectations, foster innovation, and empower individuals to achieve their goals in the digital realm.

We believe in the power of education to empower individuals and transform lives. We empower learners to unlock their full potential, embrace lifelong learning, and thrive in the digital age.

“

Embrace the elegance of luxury,
and the power of perpetual
learning in tech. In our journey,
we fuse opulence with expertise,
crafting a legacy where
innovation meets refinement.

SEGUN

Product Design in Blockchain Development

1: Introduction to Blockchain Technology

- Understanding blockchain fundamentals
- Overview of blockchain use cases in product design

2: Design Thinking in Blockchain

- Applying design thinking principles to blockchain projects
- Ideation and brainstorming for blockchain-based products

3: User Research in Blockchain

- Conducting user research for blockchain applications
- Identifying user needs and pain points in blockchain contexts

4: Creating User Personas and Stories

- Developing user personas for blockchain users
- Crafting user stories to guide blockchain product development

5: Prototyping Blockchain Products

- Prototyping techniques for blockchain applications
- Tools and methods for creating blockchain prototypes

6: Usability Testing for Blockchain Products

- Conducting usability tests for blockchain interfaces
- Iterating on blockchain designs based on user feedback

7: Designing for Security in Blockchain

- Understanding security considerations in blockchain design
- Incorporating security best practices into blockchain products

8: Designing for Transparency and Trust

- Ensuring transparency and trust in blockchain interfaces
- Designing user experiences that promote trust in blockchain systems

9: Designing for Decentralization

- Design principles for decentralized applications (DApps)
- UX considerations for decentralized user interactions

10: Designing for Scalability and Interoperability

- Addressing scalability and interoperability challenges in blockchain design
- Design strategies for scalable and interoperable blockchain products

11: Designing for Governance and Compliance

- Understanding governance models in blockchain networks
- Designing interfaces that facilitate governance and compliance

12: Final Project and Presentation

- Applying design principles learned throughout the course to a final project
- Presenting and showcasing blockchain product designs to peers and instructors

About us

At Techtan, we understand that the digital landscape is ever-evolving, and navigating it can be daunting. That's why we've created a tech hub designed to empower individuals with the skills and knowledge needed to thrive in today's digital era. We provide top-notch tech education in a clean, calm, and classy atmosphere. We believe that learning should be an enriching experience, which is why we've curated a team of expert instructors who are passionate about sharing their knowledge and guiding learners through their tech journey with personalized attention and support.

ADDRESS

No. 7 Umuechem Street, D/Line, Off Olu-Obasanjo Bypass, behind Energymatic Filling Station, Port Harcourt, Nigeria, 500261
